COMMUNICATIONS.

It must be distinctly understood that we

do not hold ourselves responsible for the

opinions expressed by correspondents.

AUDI ALTERAM PARTEM.

To the Editor of the Times.

SIR.—The leader in your issue of 30th

ult. directed my attention to an article

in the *Saskatchewan* of the 23rd headed,

"Mr. Betts and Cumberland," which I

had not previously read. If the consti-

tutes were of my way of thinking they

would in this matter of the local elections

act independently, take matters into

their own hands, and decline to be

advised,ajoled or coerced by any partisan

newspaper, caucus, association or other

outside influence whatever. The elec-

tors are quite capable of judging for them-

selves, they know what they want, they

don't require leading strings, and they

should emphatically repudiate the gratui-

tous advice of interested parties who, to

say the least of it, are but blind guides

at the best. I am far from wishing to

curtail the liberty of the press, and I say

with John Milton, "Give me the liberty

to know, to utter and to argue freely,

above all liberties." The *Saskatchewan*

quite within its legitimate sphere of

action in criticising the political career of

a candidate for re-election; but when it

inserts as an editorial such a tissue of

misrepresentation and innuendo as the

article in question, it overshoots its mark,

defeats its own purpose and loses any

influence it might otherwise lay claim to.

An intelligent community loves fair play,

H. B. COY.

Look out for The Hudson's Bay Company's

NEW FALL AND WINTER STOCK!

Which will begin to arrive next week

The largest and finest stock ever brought to town, and at prices which are sure to satisfy all purchasers.

THE HUDSON'S BAY COMPANY'S
EAST AND WEST END

What's the Matter with the Farmer?

A practical farmer, in writing to the *American Farmer*, asks "What's the matter with the farmer?" and goes on to say not one in a hundred can solve the problem. The farmer has not grown in the past five years any crop that will justify and maintain the comforts of a comfortable life. Ask the farmer his profits on a cereal he may produce; nine times out of ten he is unable to answer the question. Many a farmer rushed early potatoes to market. Eighty-cent potatoes he thought wonderful, but take into consideration that the man he sold to was deriving a greater profit with his expense and labor than the producer. You deliver the retailer ten bushels every day; he sells at \$1.20, or 40 cents profit, sixty bushels per week, you receiving \$48, the retailer \$24. It has cost the farmer, counting his labor and seed, interest and tax, \$35 to produce the sixty bushels of potatoes. This is a low estimate, as time and space will not admit of a full analysis of all expenses itemized. This is only one of the many crops produced at a loss. Let any man speak of facts, and the situation of the farmer, and he is considered a crank. Every farmer at the end of the season—I mean the practical farmer—should ask himself the question: Have I made anything above a bare living? If, when his crops are gathered and sold, his debts are paid and everything squared up at the close of the year, he finds himself no better off financially than when he began on the first of last January, while the man that bought his products has realized a handsome profit, and the farmer has furnished him with the chief subsistence of this life for less than it required to produce it, it is time to call a halt and see what is the matter. Farmers should follow the example of the merchants. Foot and balance your books. Every farmer should keep a day book, a ledger, and a general record of all work done, money spent, time lost, crops raised, what they cost, and what each sold for, and the net profits. Keep out of politics, but vote for the best man, regardless of politics. Do your own thinking, and if justifiable vote accordingly. Let the city man carry your torch, and keep yourself in the dark. I am becoming more and more convinced each year that our slack and unbusinesslike methods of farming are a greater cause of hard times and poor farmers than any other reason. We do not usually

give our occupation half the attention it might deserve, but allow others to do it for us. We should study every detail of our raising and profit by our mistakes, which are too numerous to count the cost of preparing the land, the fertilizers applied and the cost of planting, cultivating, gathering and marketing each crop raised in 1891. Lack of capital is the great trouble with the majority of farmers. It hampers them in buying and selling, as they are at the mercy of those with whom they have to deal. After carefully making the calculation and thinking over the result—and be sure you are right—if you find your crop has brought you out in debt, or barely even, you should set about immediately to do one of four things, viz.: lessen the cost of production, increase the yield per acre, increase the selling price, or raise the selling price for 1892.

HOW TO PREVENT SMUT.

For stinking smut fill a tub or half barrel about two thirds full of water, warmed up to 140 to 145 degrees temperature. Place a bushel of wheat seed in a loose or thin sack (say a coffee sack), and dip it into the tub and thoroughly work the water in among the seeds. Let the seed stand in this hot water at least five minutes. The water must not be allowed to get cooler than 130 degrees, and the nearer it is to 140 degrees the more satisfactory the treatment. The seed will dry in twenty four hours if spread on a barn floor and occasionally turned, or it can be dried in a short time if mixed in land plaster or dry road dust.

For loose smut dip the seed as in treating above, only have the water ten degrees warmer—150 to 155 deg.

THRESHING.

When all grain was threshed by hand, farmers were generally particular to have it dry before flailing it out. They cared less about this when threshing was done by the power of horses, though we have seen the machine almost stop for a minute while wet heavy bundles were being crowded through it. Now that steam does the work, some appear to think it makes little difference as to the condition the grain is in. Yet even with steam power, threshing grain too wet leaves some in the head, or else tears the straw to pieces much more than is necessary. It takes longer to thresh grain even with steam engines when not through sweating

and gets thus threshed in danger of spoiling in the bin unless well cared for. *American Cultivator.*

Wheat is usually self fertilized, and as bees do not come to its blossoms it is rarely that new varieties are originated. Crossing by depositing pollen from one variety on a flower blossom is not difficult if the time for doing this is known. This can be only learned by practice. It is not best to cross fertilize varieties that widely differ. The result will probably be a mongrel breed, having none of the best characteristics of either. Some of the best kinds of wheat seem to be accidental sports.

Hogs, if properly managed, will help the farmer who is in debt better than almost any other class of stock. Under present conditions of feeding and managing stock it is only in exceptional cases that the farmer can afford to pay any considerable amount of interest and at the same time keep slow growing stock with which to pay the principal and interest.

To carry pigs through profitably, grass or clover must be depended upon as the principal food, using other materials, such as bran or chops, only as accessories when the pasture is short.

PRINCE ALBERT SASK

A few thoughts concerning

ASTHMA

Its Cause and Cure

Must interest every one afflicted with this terrible disease. To describe this disease to one that has suffered for years the untold agonies of suffocation and distress night after night and who in many extreme cases would only gladly welcome death in order to be relieved from such suffering with no prospect of ever being any better is not pleasant to contemplate. All the boasted remedies heretofore claimed to cure Asthma have failed or only given temporary relief. The smoking of leaves and barks, saturated paper and pastilles has been resorted to as the last means for only a temporary relief anything being considered a blessing that will release the grasp of the fingers of death even for a short time, which seems to be tightening every moment more and more; the sufferer knows that this is Asthma.

Today, suffering, in a few days relieved, and no good reason can be given as to the cause of these sudden changes and return of suffering, only by the poisonous blood acting on the nerves producing the disease. In Asthma there is a

SPECIFIC POISON in the blood that must be **DESTROYED** before Asthma can be

CURED

This poison is oft-times inherited and passed through many generations, like Scrofula, never losing its power to produce Asthma and oft-times affecting the lungs and bringing the sufferer down to a Consumptive grave. Location, with surrounding causes will arouse and set to work this poison in the blood, so that in some sections of the country an Asthmatic cannot live, even in one part of a city their suffering is intense, move to another part and they are entirely free from Asthma. Thus you learn that there exists a certain poison in the system, that when certain influences are brought to bear that exist in the Atmosphere in many localities will develop this poison in an unusual degree thereby affecting the NERVES, producing spasms and difficult breathing, which every Asthmatic has had such sad experience with, suffering, and no hope of being cured; for having tried every known remedy, exhausted the skill of the physicians, have given up in despair. After years of study and patient research and watching this disease in all its various phases under every circumstance, we present a cure for Asthma known as **DR. TAIT'S ASTHMALENE**, which will entirely destroy this poison in the blood and restore the nerves to a healthy condition and when this is done the spasms will cease, the choking will subside, and the injury done to the lungs will begin at once to be repaired and the nerves restored to perfect health. **ASTHMALENE** is unlike all other so called Asthma cures, as it contains NO Opium, Morphine, Ipecac, Squills, Lobelia, Ether, Chloroform or any other dangerous or Narcotic, but its combination is of such a nature that it will destroy every particle of this poison in the blood and expel it from the system, effect a cure and give a night's sweet sleep. We have received thousands of testimonials from every State in the Union of the marvelous results from the use of the **ASTHMALENE**. We have never published them, for testimonials have been manufactured so extensively and sold so cheap that people have no confidence in them.

WE DO NOT WANT YOU TO SEND US MONEY

We do not make out a long list of prying, personal and impertinent questions, nor do we resort to any clap net or any nonsense of any kind in order to make monthly or permanent patients; we only ask any one suffering from Asthma to TRY A FEW DOSES of Asthmale. We make NO CHARGE FOR a trial bottle to sufferers from this terrible malady. Send your name on a postal card and we will mail

FREE

Enough of Dr. Tait's Asthmale to show its power over the disease, stop the spasms and give a good night's rest, and prove to you (no matter how bad your case) that **ASTHMALENE CAN CURE ASTHMA**, and you need no longer neglect your business or sit in bed all day gasping for breath for fear of suffocation. Send us your full name and post office address on postal card. **THE DR. TAIT MED. MEDICINE CO., ROCHESTER, N. Y.**

LOCAL HAPPENINGS

In Our Midst.

St. George's meets on Friday evening next at the Queen's hotel.

If you want anything in China, Stone-ware, or Glassware, go to F. C. Baker.

The School Board of No. 3 district are advertising for a caretaker for the winter months.

C. H. Sweetapple, formerly connected with the N.W.M. Police here, is in town and staying at the Queen's.

With two or three exceptions, the balance of our Winnipeg excursionists returned home by Tuesday's train.

J. M. Duck, of Windsor, and brother of the late George Duck of this town, arrived in a few days ago and is staying at the Queen's.

Major Hoy, M.L.A., arrived in yesterday, and is staying at the Queen's. The gallant major is feeling very happy over the bountiful harvest just reaped.

In another column will be found an advertisement asking tenders for the privilege of cutting timber on a berth on the Little Red River, north of the town.

Our mechanical staff still remains short handed, as our wayward assistant was not amongst the returned excursionists. We greatly fear he must have lost his tag.

Miss Graham, of Brandon, the young lady recently engaged as a teacher in our Central School, arrived Saturday last, and commenced her duties on Monday morning.

T. E. Baker has on hand a large supply of coal at his coal and lumber yard, which he is offering at a reduced rate. Read his advertisement.

With the exception of the chimney, brick work on the school building is through with, and the carpenters are busy at roofing, shingling and other joiner work.

W. H. Meyers, of Carrot River, came in on last evening's train. Mr. Meyers has just returned from Toronto, whither he had been accompanying his mother, who resides there.

The brick work on the church building has been completed and the building roofed and shingled. Lathing is also about through with, and the plasterers will soon be at work.

D. N. Horne, M.L.A., of Vancouver, B.C., was in town last week. Mr. Horne invested largely in town property while on a previous visit here, and this time came out to look after his interests here.

Buy your Groceries from F. C. Baker, the Goods are always fresh and nice, no old stock.

Arrivals at the Queen's—H.E. Bradley, D. Hossack, F. S. Chapman, Winnipeg; D. N. Horne, M.L.A., Vancouver, B.C.; J. M. Duck, Windsor; C. H. Sweetapple, Calgary; C. McKenzie, Duck Lake.

We are in receipt of reliable information that a survey of the Shell River district will be proceeded with at once, instructions having been issued from the Surveyor General's office to go on with the work.

Work on the new drains is being rapidly pushed ahead. D. Williamson is making the connection on Church street, while C. Hamilton has a large staff employed on the creek down the west side of Ford's road.

For Ladies' Jackets, Ulsters, Shawls and Children's Woolen Goods, go to F. C. Baker's.

Mr. Fawcett has closed down his brick yard for the season. He has on hand a fine kiln, lately burned, ready for next season's work. Mr. Fawcett claims the brick in this kiln to be superior to any he has yet turned out.

In about two weeks time I will receive a car load of the Best Apples ever shipped from Ontario. These apples are all hand-picked. Parties desirous of securing their winter's supply by the barrel should send in their orders at once to JOHN W. Toccoon.

Mr. Hearn, of the Imperial Bank, who left for Winnipeg some ten days ago, returned Saturday evening last accompanied by his wife, having during his absence joined the noble army of benefactors. To Mr. and Mrs. Hearn we extend our warmest congratulations, and wish them all happiness.

Dr. T. A. Storum's
OXYGENIZED EMULSION OF PURE
COD LIVER OIL. If you have Catarrh—Use It. For sale by all druggists.

F. C. Baker is prepared to take orders for all kinds of ladies' and gent's Fur Goods.

A beautiful souvenir. Splendid illustrations, supplements, literary features and artistic arrangement; charming stories, beautiful engravings, sketches and poems, wit and humor, in delightful combination in the Christmas number of the Dominion Illustrated for 1891. No expense will be spared to make it the most magnificent souvenir ever issued in Canada. Published by the Sabiston Litho. and Pub. Co., Montreal.

The newly appointed Roman Catholic Bishop of Prince Albert did not arrive on Saturday evening last, as was expected, having missed railroad connection at Winnipeg. However, his Lordship Bishop Pascal came in on last evening's train and was met at the station by a large number of the principal adherents of his Church here. The installation ceremonies will take place at the church to-day, as previously stated, while vespers will be held in the Convent in the evening at 7 o'clock, where there will be ample accommodation for all who may wish to attend, to whom a cordial invitation is extended.

A car load of choice Winter Apples to arrive about 1st of November, for R. T. Goodfellow. Call and get prices.

The adjourned monthly meeting of the above society will be held at the Queen's Hotel on Friday evening next, at 7:30 o'clock. Important business.

A. H. WOODMAN sec.

WANTED.

A caretaker for Public School District No. 3, for the winter months.

Applications will be received up to Saturday, the 10th inst.

For further particulars apply to

J. M. CO-MBS,

Sec. Board of Trustees.

TENDERS for a License to Cut Timber
Timber on Dominion Lands in the
District of Saskatchewan.

Sealed Tenders addressed to the undersigned, and marked on the envelope "Tender for Timber Berth 535," will be opened on the 2nd November, 1891, will be received at this Department until twelve o'clock a.m. on Monday, the 2nd November next, for a license to cut timber on Berth 535, situated on the east bank of Little Red River, a tributary of the Saskatchewan River, in the District of Saskatchewan, and containing an area of two square miles more or less. The regulations under which a license will be issued, together with a sketch showing approximately the position of the berth in question, may be obtained at this Department or at the office of the Crown Timber Agent at Prince Albert.

Each tender must be accompanied by an accepted cheque on a chartered bank in favor of the Deputy of the Minister of the Interior for the amount of the bonus which the applicant is prepared to pay for the license.

JOHN B. HALL,

Acting Deputy of the

Minister of the Interior.

Department of the Interior.

Ottawa, Sept. 17, 1891.

NOTICE.

I hereby request all who are indebted to me to call and settle their accounts on or before the 25th October, 1891, by note or otherwise. All accounts not settled by that date will be given over to my solicitor for collection.

J. A. McDONALD.

I CURE FITS!

When I say I cure I do not mean merely to stop them for a time and then have them return again. I mean a radical cure. I have made the disease of FITS, EPILEPSY or FALLING SICKNESS a life-long study. I warrant my remedy to cure the worst case. Because others have failed is no reason for not now resorting to a cure. Send at once for a treatise and a Free Bottle of my valuable remedy. Give EXPRESS and POST-OFFICE.
H. G. ROOT, M. C., 185 ADELAIDE ST. WEST, TORONTO, ONT.

Fine Horses For Sale.

The undersigned will offer for sale, at J. M. Campbell's corral, from the 1st to the 8th October, his band of horses, consisting of the Clydesdale stallion, 3 years old, "Bravery," and Clydesdale stallion "Beretford," 2 years old, and a large number of heavy draught, general purpose and light Mares, Geldings and Fillies, on favorable terms to suit purchasers.
